### Instructions

- Die cut pearlescent paper using largest die cut from bundle, then place carefully in the embossing folder and run through the machine. (doing it in this order means that it is more 3D. These can then be cut apart to have individual seashells and seaweed for features.
- Stamp dollar shell on pearlescent paper with Versamark and gold embossing powder. Cut out.
- You will cut the verses out using Stitched shape dies. For the larger verse I used one of the stitched rectangles and made it to fit the verse (9X5cm)

### Putting it all together

#### Top Row

**Left** - Place DSP on one of the Misty Moonlight 7.5cm squares. Add a shell to this as a feature. Before adhering it, I sponged it lightly in Misty Moonlight ink.

**Right** – Place large rectangle of DSP on 7.5 X 15.5cm rectangle of Misty Moonlight. Add verse and dollar shell.

#### Middle Row

**Left** – Using sentiment from stamp set, stamp it on the 7cm square DSP. Add this to 7.5cm Misty Moonlight square.

**Centre** - Add 7cm Shimmer Paper circle to scalloped Misty Moonlight base circle and add a smaller 6.5cm circle of DSP on top.

**Right** – Add DSP square to 7.5cm Misty Moonlight background square and add shell on top that has been lightly sponged in ink to tone.

### **Bottom Row**

**Left** – Add DSP to 7.5 Misty Moonlight square and verse as top layer. I added a shell embossed in Versamark and Gold embossing powder to bottom right of square.

**Middle** – Add DSP to 7.5cm Misty Moonlight square and largest shell sponged in Versamark and Gold to highlight it on the top.

**Right** – Add 7cm DSP circle to Misty Moonlight scalloped base circle and add verse on top. I added one of the small shells (sponged with inks) as an embellishments.

### **To Assemble**

Place all feature pieces onto background in preferred order and glue down and add pearls and opals and gold thread as you wish. Place in frame.

### **To make Very Vanilla Shimmer Paper**
